What initiatives at the local, State and national level do you believe will have the most significant impact on health information professionals in the future?
As educators, how do you forecast what skills HIMs will need to retain relevance in the health sector and adjust course content and structure accordingly?
How can we increase the visibility of health information professions and promote them positively to potential new students so that the profession is well resourced into the future?
How can new HIM graduates ensure that they develop a profile and presence within their organisations and drive some of the health reform initiatives?
What do you think HIMAA can do to ensure members are in a position to take a lead role in health reform now and into the future?
